I am writing concerning docket number 98P-0151/CP1. I am in support of this because it concerns the slaughter of downed animals for human food supply. Downed animals are considered "diseased" according to current USDA standards, and for this reason, they should be humanely euthanized, not sent to slaughter for some unknowing person to eat. I am urging you to please stop the downed animal trade!

Sincerely,

A handwritten signature in cursive script that reads "Heather D. Marshall".
